WE DON'T GIVE REPAIR ESTIMATES

During our inspections, we're constantly asked, "how much will it cost?". Our answer is: "It's against company policy to give estimates, we suggest calling a contractor." Even when they say, "they won't hold us to it, we just need a ballpark", we still won't give estimates.

There are too many variables for us to try to get involved with estimates. The only way to get a valid estimate is to get one from a contractor, someone that's willing to do the job for the price they quote.
